EXPERIENCE

ELHELP SMART SOLUTIONS

Front End Web Developer (Vibe Coding)

August 2026 – September 2026

- Collaborated with a cross-functional team (Front-End, Back-End, Mechatronics) to build an automated ANPR gate management system.
- Designed and developed responsive dashboards for role-based access control, unit owners, and automated car registrations.
- Integrated real-time UI components to display live vehicle detection feeds, camera logs, and gate access events.

Khedmti Platform – Saudi Arabia

Customer Support Specialist

August 2024 – Present

- Communicating with clients to understand their career goals and target job requirements.
- Creating and editing professional resumes optimized for ATS systems.
- Optimizing LinkedIn profiles to improve employment opportunities.
- Following up on customer requests and ensuring client satisfaction.
- Working within a remote team environment and organizing daily tasks efficiently.

Freelance Work

- Creating and designing professional portfolios based on the client’s experience and field of work.
- Designing modern and responsive portfolio files suitable for various professional fields.
- Improving the presentation of content and information within portfolios to better highlight strengths and professional experience.

ITSOLERA PVT LTD

Full Stack Developer – internship | Remote | Jan 2026 – Apr 2026

- Developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Built a basic e-commerce application using the MERN stack, covering both front-end and back-end functionalities.

Private Company – Remote

Front-End Training Projects | Apr 2025 – Jun 2025

- Trained on real-world projects aligned with market demands in the Front-End Web Development track using React.js and Next.js.

Information Technology Institute (ITI) – Remote

Internship - Front-End Development (React.js Track) | Aug 2022 - Sep 2022

- Completed introductory training in HTML, CSS, JavaScript, Bootstrap, and React.js.
- Performed assigned tasks from instructors.
- Collaborated in a team of three to build a basic e-commerce system.
